

## Y7 Catch Up Funding– Reading and Maths

2015-16: We have 12 pupils who are eligible for Catch Up funding as their reading levels are below L4 on entry. There are 15 who are eligible for Maths Catch Up funding as they are below L4. Of those, 8 are to receive both reading and Maths support. Funding is from the Cost centre 710 – Catch Up is allocated as £500 per pupil per annum. (Approximately £13,500 pa).

2016-17: We are awaiting new information on the Y6 eligibility and will update as data is available. (July 2016)

The provision is as follows: **Reading:** The pupils are withdrawn from non-core subjects on a carousel for an hour a week. Sessions take place in the library. They work with one of the reading tutors- with Caroline Whitehead (TA English); Amanda Streatfield (EAL and reading tutor) or Susan Bence (retired English consultant). The sessions are one adult to 2 pupils and are based around teaching phonics, guided reading and using the Accelerated reader programme. The sessions are personalised around the individual pupil need and impact is tracked via the tutor testing and with the STAR tests completed in line with data captures. Pupils also receive reading support from teachers, from the Accelerated Reader investment and from the whole school focus on literacy, including DEAR time of 20 minutes per day. We have invested in new stock for the guided sessions (sets of fiction and non-fiction texts aimed at Level 3a and Level 4 and at reading ages 8-11)

**Maths:** The pupils are withdrawn from their non-core lessons and receive provision from Lyn Wilson (HTA Maths) and a Maths tutor (TBA). Sessions take place in a small breakout room in the Maths department. Pupils work in small groups of up to 4 and learn using the Accelerated Maths online programme we have subscribed to. Pupils work through the programme, designed specifically to support pupils working below Level 4 in Maths, using Chromebooks.

### Funding and Expenditure on Catch Up Funding 2016-17

|   |                                     |
