

EVOLVE: Biology magazine

The Abingdon School have started their own Biology magazine which is full of interesting articles and art work.

I am running a competition for John Mason School students year 7-13 to enter for a chance for their work to be published in the next edition of the magazine.

This could be an article, an interview, some art, photography or a puzzle. But it must be linked to Biology in some way.

If you are interested in the chance to feature in the magazine then send your entry to Mrs Williams kwilliams@johnmason.school by Friday 15th March.
