

Learning from Home – Tuesday 19th

Year 8 and Year 10 working from home

This week, while students are in school, they will follow their normal timetable; their normal subject with their normal teacher at the usual time.

To support consistency in learning when students move from working in school to working from home, students will study their normal timetabled subjects at home too.

To access the correct lesson resources, students will need to click their year group below, and then select the correct subject that they would have on Monday of week A.

For every subject, the first lesson has been labelled as 'Lesson 1'.

If they have the same subject again later in the week, students will need to access 'Lesson 2', so additional resources will be added throughout the week.

Students should refer to the paper copies of their timetables they were given in school in the first week or can access their timetables by logging into Bromcom.

If you encounter a link that will not work, or you can not find work in the folder, please email Dr Stanger astanger@johnmason.school saying what year and subject you are having problems with. While you are waiting for advice, you could move on to a different lesson.

If you need further guidance with the work, contact your subject teacher.
